S, s /ɛs/, **S's, s's** /ɛsɪz/. **1 S** is the nineteenth letter of the English alphabet.
2 S or **s** is also an abbreviation for various words beginning with s, such as 'seconds', 'shillings', 'son', and 'south'.

S □ In this dictionary s is used in the grammar notes beside entries to refer to the subject of a clause. The subject of a clause is usually a noun group. In ordinary statements in English, the subject comes first, and announces the topic of the rest of the clause. In questions in English, the subject is normally placed after an auxiliary verb such as 'do' or after a modal verb.

-s; also spelled **-es**. **1 -s** or **-es** is added to a noun in order to form a plural. EG *...cat—cats... ...farmer—farmers... ...hand—hands... ...palace—palaces... ...boss—bosses... ...potato—potatoes.*
2 -s or **-es** is added to a verb in order to form the third person singular present tense. EG *...stop—stops... ...take—takes... ...stand—stands... ...realize—realizes... ...go—goes... ...push—pushes.*

's. **1 's** is added to singular nouns, especially nouns that refer to a person or an animal, in order to form possessives. It can also be added to the pronouns 'one', 'another', 'other', 'either', and 'neither'. You just add **'** to plural nouns ending in 's' in order to form the possessive. EG *...Ralph's voice... ...the President's conduct... ...friends of the wife's... ...one's self-esteem... ...my colleagues' offices.*
2 's is also added to plural nouns that do not end in **s** to form possessives. EG *...women's rights... ...children's games.*
3 's is the shortened form of 'is' in spoken English. It is added to the end of the pronoun or noun which is the subject of the verb. For example, **he is** can be shortened to **he's**. EG *He's a novelist... She's charming... It's fantastic... There's no hurry... Mary's going to look after you.*
4 's is also the shortened form of 'has' in spoken English, especially where 'has' is an auxiliary verb. It is added to the end of the pronoun or noun which is the subject of the verb. For example, **it has gone** can be shortened to **it's gone**. EG *He's got a problem... She's gone home... It's got to be done... Anne's got a scientific mind.*
5 's is the shortened form of 'us' that is used in informal English with the word 'let', so that you can say or write **let's** instead of **let us**. EG *Let's move on... Let's not talk about that.*
6 's is added to letters, numbers, abbreviations, and acronyms to form plurals. EG *...a row of q's... ...the 1870's... The temperature was in the low 50's.*

SUPERL □ In this dictionary SUPERL is used in the grammar notes beside an entry to mean that the headword is an adjective in the superlative form. A few adverbs also have an inflected superlative form. Superlatives are typically used to indicate that you are picking out an extreme instance of something. As a rule, superlatives are formed by placing *the most* in front of an adjective. However, superlatives of fairly short adjectives are formed by adding *-est* to the ordinary form of an adjective, preceded usually by *the*. There are a few irregularly formed superlatives in English, such as *the best* from *good* and *the worst* from *bad*. If a superlative form is not given in this dictionary after the entry word for an adjective, it means that you form the superlative by placing the words *the most* in front of the entry word. Examples of superlatives are **the most interesting**, **the heaviest**, and **the worst**. EG *These are **the most interesting** years of my life... This is **the heaviest** load of all... SUPP □ In this dictionary SUPP is used in the grammar notes beside a noun to indicate that the noun is not normally used on its own, but occurs with a supporting word, phrase, or clause which gives further information about the noun. The supporting element may come before or after the noun. If it comes before the noun, it is usually an adjective or another noun used as a modifier. If it comes after the noun, it is usually in the form of a relative clause or a prepositional group, often one that starts with *of*. The supporting element need not always be present because it can be referred to by the determiner *the*, indicating that information has already been given in the preceding discourse or text. Examples of nouns which are given the extra notation SUPP in the grammar notes are **hunting 3** and **state 1**. EG *I spent all weekend house **hunting**...
